2. County Matches

- (a) A Committee, comprising the two Presidents, the Secretary, Assistant Secretary and the Match Secretaries shall, no later than January in each year, examine the programme of County Matches and agree which games are to be classified as Full County Games (for which players should hold a County Badge – see para 3f) and which as County Representative Matches (where players need not necessarily be badged provided they are considered by their club to be of a suitable standard). The Committee, with the addition of the other Presidential Officers and the Area Secretaries, will meet again in early February to assign match officials for each match and agree Area responsibilities for the provision of players for each game.
- (b) Area Secretaries, at a time to be decided by them, will then send letters to Clubs inviting players to volunteer for the matches of their choice. On receipt of the information from Clubs the Area Selectors will meet, at times/dates appropriate to each Area, to select rinks/players and reserves. Area Secretaries will then write to individuals notifying them of their selection and requesting confirmation of availability etc. The Area Secretary will forward to the Match Secretary the names of the selected players and their playing positions at least 7 days prior to the match. The Match Secretary will, as necessary, place players into rinks and forward the Match Sheet to the Presidential Officer and the Match Official. Should replacements be needed they will be sought from the same Area as the non-available player.
